

WARNING

PRECAUTIONARY BOIL ADVISORY

Water System Name: Copan PWA

Public Water Supply ID: OK1021417

Due to high combined filter effluent turbidity in the water system and the potential for contamination as a result of this situation, the drinking water supplied by Copan PWA may be unsafe for human consumption. As a precaution, **it is advised that the consumers of this water system bring the water to a full, rolling boil for at least one minute before drinking, consumption, food preparation, baby formula preparation, dish washing, tooth brushing, ice making, wound care, and bathing infants who may ingest bath water. Alternatively, bottled water or another acceptable water source may be used.**

Comments: *This is due to a mechanical failure with the equipment at the water treatment plant. We have taken all the necessary measures to resolve and repair the failures. We should be in the perimeter of safe turbidity soon. We have made contact with the State DEQ offices and are following their advice during this time.*

This advisory will remain in effect until further notice. Questions concerning this situation should be addressed to Jake Lovelace at (918) 972-9410 or City Hall at 918-532-4114.

Address of the PWS: Copan City Hall

112 N Caney Copan Oklahoma, 74022

County: Washington Co.
